

Job Title: IT Consultant

Location: Denver, Colorado

Type: Full-time

Experience: Entry level

Functions: Consulting

Compensation: Dependent upon Experience

Job Description

This position is an entry-level consulting position within a growing IT Consulting Practice that specializes in Enterprise Content Management. More specifically, the focus of the consulting practice is upon system integration, solution development and ultimate support of the Open Text Content Server solution suite (formerly Livelihood Enterprise Server). This position, based in Denver Colorado, would serve as part of a broader consulting team that delivers solutions and consulting services within various industries primarily in the Western Region.

Responsibilities may include

- Install, configure and support the Open Text Content Server (formerly Livelihood) product suite and related infrastructure components.
- Assist active product implementations with proactive and reactive support activities as well as system administration functions.
- Analyze business needs and formulate technical-based solutions.
- Develop Relational Database queries (SQL), reports, and form driven interfaces.

Desired Skills & Experience

Basic/Required

- Associate's Degree or equivalent in a technical-related discipline (Computer Science preferred)
- Knowledge of Windows server operating system, Web Infrastructure, Relational Databases (Oracle and MSFT SQL)
- Demonstrated Web Development experience (HTML, JavaScript, JQuery, PHP, XML, XSLT)
- Solid systems analysis and design skills / Knowledge of Software Development Lifecycle
- Proven track record of working in a production support environment.
- Good written and oral communication skills, particularly documentation skills
- Ability to participate actively and effectively in team efforts

Preferred

- Bachelor's degree in MIS or Computer Science
- 2-4 years of experience in a consulting environment
- Based in Colorado
